New Projects and Leaders for the Integration Experts and Expertise Working Group

ITD Alliance: Motivated by productive events during the ITD24 conference in Utrecht, the ITD Alliance Integration Experts and Expertise Working Group is now focused on three concrete output-oriented projects led by new co-leaders and a fourth project in formation. See the [Integration Experts and Expertise web page](#) for details on the projects and how to get involved.

Lessons for transformative research from co-creating a conference without a fixed plan

i2Insights, Thomas Bruhn: In developing a conference, what does it take for people to leave their comfort zones to co-design something new? What possibilities does this open up for more meaningful conference designs? What are the broader lessons for transformative research? [To the blog post](#)

A Roadmap to Transdisciplinary Research

EHL Insights, Julneth Rogenhofer: in this article, we discuss why transdisciplinary research is more relevant than ever, and why industry and academia should be working together. What are its interests and challenges, and what is the roadmap to follow for your next transdisciplinary research project?
