### TA-SWISS publishes two studies

**Ta-SWISS:** Two studies were published in the context of digitalization artificial intelligence. One **study** has examined the impact of «digital afterlife services» on both the dead and the living, the other **study** focusses on the impacts by Deepfakes and manipulated realities.

### Glossary of Terms, Pronace Ssys

**El Colegio de México:** The National Strategic Program (Pronace) of Socioecological Systems and Sustainability (SSyS) represents one of the 10 main axes of action defined by the Mexican scientific policy in relation to national problems, and promotes the transdisciplinary production of knowledge. To support the development of capacities of its collective work, a Glossary was generated to build a common language and vision ([available in Spanish](#)).

### Thanks to a successful SSH Energy Workshop

**ETH Zürich:** The 4th SSH Energy Workshop, held on June 17–18, 2024, at ETH Zurich, convened around 70 experts and researchers from various disciplines to delve into social sciences and humanities (SSH) perspectives on energy transitions. Read more about the event in [this blog](#).

### Embracing Afro-centric philosophies to decolonize research

**i2Insights:** How can researchers ensure that they de-centre Western-centric research methodologies, methods and theoretical frameworks so that the research is localized, and the researcher and relevant community voices are heard? How can Afro-centric philosophies be mainstreamed to ensure that the research deconstructs the epistemic injustice that currently exists? [Go to blog](#)
