ITD24 / Last few tickets remaining!

td-net:

Dear ITD Community, only a couple of weeks left to get your tickets for the ITD24 conference. Preparations for the conference are in final stages and the last tickets are also going very fast at the moment!

If you are still thinking of joining the ITD24 conference, please don't wait any longer because tickets are almost sold out!

Get your tickets for the conference [here](#).

We have put together a great programme for the conference through all the submissions made by the participants, along with some very interesting keynotes and panels at the Dutch Railway Museum!

You don't want to have a fear of missing out that you weren't there during ITD24.

For more info on the programme [click here!](#)

Very much looking forward seeing you in November in Utrecht!

Critical Sustainability –

Neue Publikation zur Citizen Science in der Schweiz

td-net & Science et Cité:

Partizipativ erarbeitet und mit Feedback aus der Community, stellt die Publikation der Schweizer Expert:innengruppe für Citizen Science zum einen die vielfältigen und zahlreichen Initiativen, Projekte und Tools rund um Citizen Science in der Schweiz vor. Zum anderen formuliert sie Ziele und Massnahmen für verschiedene Akteure. Der Bericht entstand im Rahmen der Initiative Citizen Science der Akademien der Wissenschaften Schweiz 2021–24 und wurde von Science et Cité koordiniert.

Wege zur Suffizienz Grundlagen und Anleitung für die Durchführung von Zukunftswerkshops

Projekt hat es sich zur Aufgabe gemacht, ein echtes Studium generale von zwei Semestern Dauer an den Hochschulen zu etablieren. Ziel dieses Studiums ist es, Generalisten auszubilden, die dank holistischen Methoden holistische Lösungen vorschlagen und umsetzen können und somit inter- & transdisziplinäre Arbeit vereinfachen. An der Universität Basel wird es dazu 2025 eine erste Ringvorlesung geben. [Mehr Informationen](#)

Three spaces of change for reorienting North–South research partnerships

i2insights: What are some of the challenges that researchers from the Global South face when engaging in development research initiatives, and how can resetting the relationships that underpin North–South collaborations help? What are the pivotal areas where change is needed? [Go to blog](#)

Read the reflection piece on the D4CS Programme

African Climate & Development Initiative: The Design for Climate Solutions (D4CS) Programme is a pilot initiative that aims to foster co-creation and innovations that address climate adaptation and resilience challenges. Four South African based teams were invited to co-design user-oriented solutions for different climate-related challenges. The presented reflection piece gives a good overview over the programme. Calls

Call for Papers: Call for Paper: Crossing gender. Sociology meets other disciplines

University of Perugia, AIS: Since its first formalization gender has emerged as an increasingly relevant key to observing and understanding the contemporary world and its change. Indeed, among the most relevant recent social transformations are to be counted precisely those pertaining to the specific weight of this identifying category for individuals and groups.

It follows that reflecting on the dimension of gender and how it exerts a critical function in the domains of social life is the task not only of a single discipline, but of the social sciences in dialogue with other disciplines (Corbisiero, Nocenzi, eds., 2022).
