FUND MANAGER'S LETTER

DEAR UNITHOLDERS,

We are pleased to announce that Alkhabeer REIT Fund ("Fund") has successfully completed its first year of operations. The Fund, which was listed on the Saudi Stock Exchange (Tadawul) on 20 March 2019, invests in seven income-generating real estate assets in Riyadh, Jeddah and Tabuk with a total value in excess of SAR 1 billion. The Fund's various investments are diversified across a number of sectors, including the retail, office and residential sectors.

The main investment objective of the Fund is to generate sustainable rental income and periodic cash distributions. In line with its investment objective, the Fund has distributed a cumulative cash dividend of 6.26% of the Fund's capital for the period from 20 March 2019 to 31 December 2019 (approximately nine months). The Fund Manager is currently upgrading the facade of Almalga Residential Compound and making improvements to the facilities at the Compound, which is expected to have a positive effect on the Fund's cash flows upon resumption of the leasing activities.

The success of Alkhabeer REIT is attributable to the Fund Manager's adoption of an opportunistic approach towards acquiring income-generating real estate assets across key cities in Saudi Arabia, developing strategic partnerships with leading real estate developers and property managers who specialize in income-generating properties. The diversification of assets in the Fund's portfolio has enabled it to benefit from a broader range of tenants and avoid concentrated exposure to a single city or sector.

The advent of the Coronavirus (COVID-19) pandemic has adversely impacted the global financial markets, and hence, 2020 is expected to be a challenging year. However, the Fund Manager is committed to fulfill its fiduciary duty towards Unitholders and is addressing the situation as it arises in light of the precautionary measures taken by the government authorities.

Currently, the Fund Manager is in continuous discussions with all the service providers and tenants in relation to the Fund. We remain hopeful and expect the investment environment to recover gradually once this global health crisis eventually abates. We will continue to look for selective opportunities that fit in line with the long-term investment strategy of the Fund.

This Annual Report aims to provide details in relation to the performance and operations of the Fund as of 31 December 2019. We would like to thank all the Unitholders for their continued patronage.

KEY FUND INFORMATION

FUND OVERVIEW

Alkhabeer REIT is a closed-ended Shari'a-compliant real estate investment traded fund established under the applicable laws and regulations of the Kingdom of Saudi Arabia, and subject to the Capital Market Authority (CMA) regulations and instructions.

FUND OBJECTIVE

The Fund's main investment objective is to generate rental income and periodic cash distributions of not less than 90% of the Fund's annual net profits, by investing not less than 75% of the Fund's total asset value, according to its last audited financial statements, in income-generating real estate assets in the Kingdom of Saudi Arabia (excluding Makkah and Medina).

FUND INVESTMENT STRATEGY

The Fund Manager will seek to achieve the Fund's investment objectives, which mainly focus on generating periodic rental income, by creating a diversified investment portfolio of real estate assets that satisfy due diligence requirements, including real estate valuation, investment feasibility, technical studies, legal reviews and other due diligence criteria. The Fund's initial real estate investment portfolio includes investments in the residential, office and retail segments in Riyadh, Jeddah and Tabuk. The Fund will seek to invest in the future in other real estate properties, which may include property investments outside the Kingdom of Saudi Arabia, as well as other investments, subject to investment restrictions.

FUND TARGETED ASSETS

The Fund continuously aims to invest in other properties, which may include real estate investments outside Saudi Arabia, as well as other investments subject to the investment restrictions. The Fund aims to invest in diverse real estate assets, which meet the following criteria:

- The properties shall be freehold, structurally developed and capable of generating periodic rental income. A maximum of 25% of the Fund's total asset value may be invested in properties under construction and usufruct rights (leasehold).
- The properties shall be located in the Kingdom of Saudi Arabia, excluding Makkah and Medina. A maximum of 25% of the Fund's total asset value may be invested in properties outside the Kingdom of Saudi Arabia.
- Acquiring real estate assets in diverse segments, such as offices, retail outlets, residential complexes, warehouses and logistics facilities, as well as properties used in education and healthcare.

FUND UPDATES

FUND UPDATES AND ANY KEY MATERIAL CHANGES THAT OCCURRED DURING THE PERIOD AND WHICH AFFECTED THE PERFORMANCE OF THE FUND

- The Fund Manager announced the signing of a “Shari’a-compliant Hedging Agreement” with Banque Saudi Fransi to fix the profit margin of the aforementioned credit facilities at 4.69% per annum in order to protect the Fund returns against profit margin fluctuations until 10 January 2024.
- The Fund Manager distributed cash dividends to Alkhabeer REIT Unitholders at a rate of 2.26% of the initial Unit price (SAR 0.226 per Unit) for the period from 20 March 2019 to 30 June 2019.
- The Fund Manager distributed cash dividends to Alkhabeer REIT Unitholders at a rate of 2.00% of the initial Unit price (SAR 0.2 per Unit) for the period from 1 July 2019 to 30 September 2019.
- Subsequent to the date of this Annual Report, the Fund Manager declared, on 28 January 2020, the distribution of cash dividends to Alkhabeer REIT Unitholders at a rate of 2.00% of the initial Unit price (SAR 0.2 per Unit) for the period from 1 October 2019 to 31 December 2019. The Fund Manager paid those dividends to Unitholders on 25 March 2020.
- The Fund Manager announced the intention to increase the Fund’s total asset value by approximately 51.6% in cash and in-kind, after obtaining the requisite approvals to acquire two properties in Riyadh and in the Eastern Province, for which the Fund Manager had signed Memos of Understanding with their owners.
- The approval of the Fund Board was obtained to appoint BEconsult as market and feasibility studies consultant.

The Fund Manager paid those dividends to Unitholders on 25 March 2020.

MARKET OVERVIEW

SAUDI ECONOMIC OVERVIEW

Saudi Arabia's real GDP grew 0.3% in 2019 compared to 2.4% in 2018. Economic growth in the Kingdom weakened primarily owing to lower oil prices and reduced crude oil production following the implementation of the OPEC+ agreement. Non-oil sector grew 3.3% YoY in 2019, led by continuing reforms initiated by the government, improving business confidence and increased government spending.

Saudi Arabia's fiscal position remains strong with an estimated budget deficit of SAR 131 billion or 4.7% of GDP in 2019, compared to 5.9% of GDP in 2018. The government announced a SAR 1.02 trillion 2020 budget, which aims to boost economic activity and support the Saudi Vision 2030 initiatives.

The IMF expects the Saudi economy to grow by 1.9% in 2020, and 2.2% in 2021, driven by reforms initiated under the government's Vision 2030 and the National Transformation Program (NTP) initiatives. Working towards promoting non-oil sector growth to achieve the goals set in Vision 2030, the KSA government has been successful in implementing structural reforms to create a conducive environment for doing business in the country. Owing to these reforms, the Kingdom climbed to the 62nd place in the 'Ease of Doing Business' 2019 rankings, from the 92nd place in 2018. Foreign direct investments (FDIs) increased to USD 3.5 billion in 9M 2019 from USD 3.2 billion in 9M 2018. The government's new initiatives towards improving market transparency and relaxing regulations in selected sectors to enhance the business climate, are expected to further boost the economic activity in the Kingdom.

REAL ESTATE SECTOR IN SAUDI ARABIA

Saudi Arabia's real estate sector continued to soften in 2019, amid falling property prices and rents across various segments, even as the government continued to take steps to boost the sector. The Real Estate Price Index developed by the Saudi General Authority for Statistics (GASTAT) plummeted 2.7% YoY in 2019. This decline was led by the residential sector, wherein prices dropped 3.4%, followed by the commercial and agricultural sectors, which registered price declines of 1.5% and 0.3%, respectively. Almost all the major markets in the country, including Riyadh and Jeddah, experienced rise in vacancy and fall in rents across all sectors.

However, real estate transaction volumes picked up significantly across the key cities. According to the data released by the Ministry of Justice, number of real estate transactions in KSA increased 65.0% YoY to 233,885 transactions during 9M 2019, while the value of real estate transactions increased 36.0% YoY to SAR 131.8 billion during the same period. Residential transactions, which accounted for 90% of the overall transactions volume and 75% of the overall value transacted, were the primary drivers of this increase, as attractive products offered by the Ministry of Housing and acceleration in mortgage lending led to higher demand for residential properties. Commercial transactions, the other major contributor to real estate transactions in KSA, also witnessed a surge in activity, as the number and value of transactions rose 40% YoY and 19% YoY, respectively, during 9M 2019.

The Kingdom remained committed to the various housing programs run by the Ministry of Housing (MOH), while also building tourism infrastructure to reshape the economy, and revive the real estate sector activity. At the beginning of last year, the MoH launched its 2019 Sakani program aimed at allocating 200,000 housing products, including mortgage units, under-construction units, off-plan units (Wafi), and plots of land allocated free of cost in major areas of the Kingdom, for the beneficiaries of the scheme. According to the Saudi Arabian Monetary Authority (SAMA), real estate loans provided by Saudi banks to retail and corporate clients stood at SAR 297.4 billion in 2019, up to 24.7% compared to total loans disbursed in 2018. The Saudi Arabian General Investment Authority (SAGIA) entered into different agreements with local companies, including King Abdullah Economic City (KAEC), Saudi Real Estate Co. (Al Akaria), Sulaiman A. Al-Rajhi Real Estate Investments Co., Samama Real Estate Development Co., Jeddah Economic Co., Al Nahla Group, Al Ameen Real Estate Development Co. and Kinan International, to increase the role of local investors in the real estate sector, while also enhancing investment opportunities through international partnerships.

Government measures aimed at increasing home ownership among Saudi citizens and its focus on the development of the Kingdom's real estate sector as part of the ongoing economic diversification process, are expected to stimulate the real estate market over the medium to long term. Moreover, the launch of the international tourist e-visas, construction of various giga projects and smart cities across the Kingdom and the new permanent residency program for skilled expats, are all expected to support the Kingdom's real estate sector and drive investments going forward.

KSA REIT PERFORMANCE

In 2016, the Capital Market Authority (CMA) of Saudi Arabia released new regulations for formation and listing of REITs on Tadawul. In the short span of a little over three years, 17 REITs have been listed on Tadawul. With a market cap of more than SAR 15 billion as of 2019, KSA REIT market is the largest emerging real estate market by value in EMEA region.

The KSA REIT market was negatively impacted by lack of liquidity and a subdued real estate market in the first half of 2019. However, in June 2019, the European Public Real Estate Association (EPRA) announced the inclusion of few KSA REITs in the FTSE EPRA Nareit Global Real Estate Index Series, which drove the REIT index in the second half of the year. Consequently, KSA REIT index, with 15.85% returns, outperformed Tadawul All Share Index (7.19% return) during 2019.

PRICE PERFORMANCE COMPARISON

KSA REITS VS. GLOBAL REITS

REITs across the globe performed well during 2019, as slowing global economic activity forced central banks around the world to cut interest rates. With low interest rates and fear of rising inflation, investors increased exposure to REITs. Uncertainties surrounding the recovery in global economic activity and REITs with low interest rates, are expected to remain on the radar of global investors in 2020.

A strong rally in global REITs in 2019 pushed down dividend yields. On the contrary, despite the significant rally in the KSA REIT index, dividend yield improved nearly 190 bps to 6.18% by the end of 2019, from 4.28% in 2018. The KSA REIT index offers significantly higher dividend yields than the global REIT indexes.

The Fund Manager paid those dividends to Unitholders on 25 March 2020.

RISK ASSESSMENT REPORT

EXPECTED RISKS	RISK DESCRIPTION	RISK MITIGATION TECHNIQUES
RENT COLLECTION RISKS	Inability of tenants to pay rents due to the Fund in accordance with the lease agreements signed with them, whether because of the tenant's insolvency or lack of liquidity when the rent becomes due. As such, the Fund will not be able, or will fail, to fulfill its periodic or targeted distribution obligations to Unitholders in the future in accordance with the Terms and Conditions of the Fund.	- The Fund entered into long-term lease agreements with key tenants. It continually endeavors to ensure that it has a diverse and solid tenant base, including government and private sector tenants. This is considered the best strategy to minimize risks of tenant default. - Implemented specific marketing strategies through relevant property managers and operators to maintain and increase the occupancy rate of the Fund's properties. - The average lease term of the Fund's properties was around 10 years (at the inception of the Fund). - At the inception of the Fund, 100 promissory notes were signed for a total value of SAR 619 million to guarantee rental payments. - The Fund Manager also closely monitors the performance of the Fund's assets. Moreover, the Fund Manager regularly meets with property managers and operators to closely monitor the assets' performance and take immediate action to ensure that the Fund achieves its aspired objectives. - The Fund Board approved a rent collection policy and an escalation policy in the event of failure of any tenant to pay rent when due.
EXIT RISKS	Inability of the Fund Manager to timely liquidate the initial assets in accordance with the Fund's strategy. This risk becomes more significant as the Fund approaches the end of its term.	The Fund Term is very long (99 years, renewable), during which the Fund Units will continue to be traded in the market, giving Unitholders the ability to exit at the time of their choosing at prevailing market prices.
INTEREST RATE RISKS	Risks of fluctuation of the value of financial instruments due to changes in the rates of return, which are affected by interest rates.	The Fund Manager signed a Shari'a-compliant hedging agreement with the Banque Saudi Fransi to fix the profit margin of the signed credit facilities.
GEOGRAPHIC AND SECTOR CONCENTRATION RISKS	Risks related to the concentration of the Fund's assets in a particular geography or real estate sector.	- The Fund Manager endeavors to maintain low geographic concentration levels, thus, reducing the severity of the effect on the Fund's assets that may be caused by an economic recession occurring in a given geography or a specific real estate sector. - The Fund's assets are distributed in the retail, office and residential sectors in Jeddah, Riyadh and Tabuk. - The Fund Manager aims to expand the scope of diversification by acquiring properties in new regions and sectors.
REGULATORY AND GEOPOLITICAL RISKS IN THE COUNTRY OF INVESTMENT	The risks of potential adverse effects of new regulations, policies and taxes or the sociopolitical instability on the Fund's performance and/or liquidity.	- At present, the Fund invests all of its assets in the Kingdom of Saudi Arabia. Investment abroad shall not exceed 25% of the Fund size, in accordance with the Real Estate Investment Traded Funds Instructions. - The Fund manages the various risks of the country in which it invests, including any changes in regulations, policies and taxes, by closely monitoring the regulatory / political / taxation conditions in the Kingdom of Saudi Arabia and anticipating and preparing for any possible change.

EXPECTED RISKS	RISK DESCRIPTION	RISK MITIGATION TECHNIQUES
ECONOMIC RISKS	The risks of potential effect of a macroeconomic deterioration on the performance and valuation of the initial assets, and consequently on the Fund.	The Fund Manager continues to closely monitor the macroeconomic condition, in general, and any development(s) in the real estate sector, in particular, to ensure proper decisions are made accordingly.
OPERATIONAL RISKS	Operational risks are the risks of incurring a direct or indirect loss as a result of unforeseen operating or capital expenses for the improvement and maintenance of the properties, whether for a cause related to the Fund's service provider, or for other externalities, in addition to credit, liquidity, currency and market risks, such as those which may arise as a result of legal and regulatory requirements.	- The Fund Manager, Alkhabeer Capital, has an outstanding track record and vast experience in asset management. - To ensure application of the best practices, some of the key functions which require specialized expertise, were assigned to experienced and reputable service providers with good track records. - The Fund's overall objective is to manage the operational risks to strike a balance in minimizing the financial losses and damages to the Fund's reputation by achieving the Fund's investment objective, namely realizing returns to Unitholders. - The Fund Manager also closely monitors the performance of the initial assets through periodic visits. It also holds regular meetings with the property managers to assess any issues / events which may lead to weak Fund performance.
REGULATORY COMPLIANCE RISKS	Failure of the Fund to comply with applicable laws, rules and regulations in effect in the countries where the investment is targeted. Such risks include legal, regulatory and Shari'a compliance risks.	The Fund Manager continues to monitor the Fund's compliance with laws and regulations, and the Fund's Terms and Conditions. It will also take all necessary action to fulfill these requirements.
VALUATION RISKS	The risks that the Fund's market value drops far below the Fund's Net Asset Value (NAV), which could occur as a result of exaggerated valuation of the initial assets above their actual market value.	- The Fund Manager addresses these risks by: - Before Acquisition: Carrying out a thorough due diligence and valuation. - After Acquisition: Focusing on realizing benefits and increasing value in the long term for Unitholders, as well as on its ability to generate sustainable periodic rental income yield with the capacity to achieve long-term growth. - The risks of Fund Units valuation below the Net Asset Value (NAV) are subject to the overall market sentiment and prevailing views on the real estate investment funds sector as a whole, and the properties sector in general. When compared to global valuation, real estate investment (REIT) funds are traded in most countries at a price that is lower than the NAV.
LIQUIDITY RISKS	Liquidity risks relate to the potential inability of the Fund to secure sufficient cash resources to fully pay its obligations when they become due, or if the Fund is unable to do so except with extremely unfavorable and harsh conditions.	The Fund Manager monitors liquidity requirements by ensuring the availability of sufficient funds to fulfill any obligations when they arise, either through the allocation of a cash reserve, disposal of investment properties, or obtaining of short-term loans.

EXPECTED RISKS	RISK DESCRIPTION	RISK MITIGATION TECHNIQUES
FUND MANAGER RISKS	Unitholders may not have the opportunity to participate in the day-to-day operations or decisions of the Fund or exercise any control thereon, including the investment decisions and actions taken by the Fund Manager, which may affect the Fund's performance.	- The Fund Manager has developed systems and controls to ensure the Fund's continued compliance with regulations at all times and manage the Fund's risks accordingly. - The Fund Manager relies on the expertise of its highly experienced investment team to best serve the interests of the Unitholders and realize the Fund's long-term growth aspirations. - When certain functions / activities are assigned to third parties, the Fund Manager performs the proper due diligence on those service providers and ensures their acceptance of, and compliance with, the Fund Manager's conditions.
DEVELOPMENT RISKS	Development risks relate to the Fund's assets under development, including delay in the completion of works beyond the approved time schedule, estimated development cost overruns, inability to sign lease contracts to generate expected revenues, failure of performance by any of the contractors, in addition to factors related to the construction sector, which are beyond the Fund Manager's control (including bad weather conditions, environmental changes, and unavailability of building materials in the market), obstructing the completion of the development works and resulting in the inability to generate the projected revenues upon completion of the development activities.	- The Fund invests the majority of its assets in developed properties. Investment in assets under development shall not exceed 25% of Fund size, in accordance with laws and regulations. - The Fund Manager shall assign the development works to experienced service providers capable of completing their scope of work.
LEGAL RISKS	Legal risks relate to potential cases arising from disputes related to contracts signed by the Fund with counterparties.	- The Fund Manager has the contracts reviewed by the Fund's legal advisor before signing to ensure the protection of the Fund's rights. - In the event of a dispute, the Fund Manager appoints a qualified legal advisor to follow up with the case.

OVERVIEW OF THE FUND PROPERTIES

1: ALMALGA RESIDENTIAL COMPOUND

CITY OF RIYADH

PROPERTY OVERVIEW

SEGMENT	Residential
OWNERSHIP	Freehold
NUMBER OF FLOORS	3 floors and a penthouse (in each building)
PROPERTY COMPONENTS	18 buildings comprised of 290 furnished residential units divided as follows: - 242 units offering three bedrooms - 10 units offering two bedrooms - 38 units (studio) in the basement
PROPERTY FACILITIES	The property has an underground car parking area of 10,000 m ² in the basement, indoor swimming pools, common entertainment areas, multi-use halls and two health clubs.
LAND AREA	15,925 m ²
TOTAL BUILT-UP AREA	41,361 m ²

2: GALLERY MALL

CITY OF TABUK

PROPERTY OVERVIEW

SEGMENT	Retail
OWNERSHIP	Leasehold for 25 years starting in 1434H

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF ALKHABEER REIT FUND

Opinion

We have audited the financial statements of AlKhabeer REIT Fund (the "Fund"), which comprise the statement of financial position as at 31 December 2019, and the statement of profit or loss and other comprehensive income, statement of changes in net assets and statement of cash flows for the period then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at 31 December 2019, and its financial performance and its cash flows for the period then ended in accordance with International Financial Reporting Standards ("IFRSs") that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are endorsed by the Saudi Organization for Certified Public Accountants ("SOCPA") (collectively referred to as "IFRSs that are endorsed in KSA").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs") that are endorsed in the Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund in accordance with professional code of conduct and ethics endorsed in the Kingdom of Saudi Arabia that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming auditor's opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

Key audit matter	How our audit addressed the key audit matter
Impairment of investment properties As at 31 December 2019, the carrying value of investment properties held by the Fund amounted to SR 907.4 million. Investment property is measured initially at cost including transaction costs. Subsequent to initial recognition, investment property is stated at cost less accumulated depreciation and impairment losses, if any. However, the fair value of the investment property is disclosed along with its impact on net assets per unit.	Our audit procedures in response to the assessed risk of material misstatement in valuation of investment properties comprised of: • Obtained an understanding of the management processes for identification, and mitigation of valuation risk; • Performed test of details on the acquisition costs and ensured that all costs are appropriately capitalized;

**INDEPENDENT AUDITOR'S REPORT
TO THE UNITHOLDERS OF ALKHABEER REIT FUND (continued)**

Key Audit Matters (continued)

Key audit matter	How our audit addressed the key audit matter
In accordance with the requirements of relevant accounting standards, the Fund is required to assess indicators of impairment on its property at each reporting date. In case such indicators are identified, the recoverable amount of such property is required to be determined. As part of its assessment of impairment indicators, the Fund reviews both the internal and external indicators of impairment including but not limited to net cash outflows or operating losses, physical wear and tear of assets and adverse market changes or conditions. Moreover, the assessment of recoverable amounts entails the use of complex valuation techniques. Since, the evaluation of impairment indicators and ensuing recoverable amount assessment, where required, involves the exercise of significant judgment, it has therefore been determined to be a key audit matter. Refer to notes 5 and 7 to the financial statements for significant judgements and assumptions applied in the determination of the recoverable amounts of the investment properties and note 4 for the details of related accounting policies.	• Assessed the Fund Manager's determination of the following: ◦ The factors considered by the Fund in impairment indicator assessment, and ◦ The basis used for the identification of cash generating units ('CGU'), which is the level at which recoverable amounts are determined. • Assessed the recoverable amount assessment prepared by the Fund using valuation reports prepared by independent valuers and assessed the model, assumptions and estimates used in the calculation of fair values less cost of disposal ('fair value') and value in use ('VIU'). • Assessed the key assumptions and estimates used, including discount rate, terminal rate, annual rental income, operating expenditure. Checked sensitivity analysis, including assessment of the effect of reasonably possible changes in the discount rate and operating expenditures on the forecasted cash flows to evaluate the impact. • Compared the recoverable amount of each CGU with its carrying value. • Evaluated the financial statement disclosures, including disclosures of key assumptions and judgements.

Other information included in the Fund's 2019 Annual Report

Other information consists of the information included in the Fund's 2019 Annual Report, other than the financial statements and our auditor's report thereon. Fund Board is responsible for the other information. The Fund's 2019 Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF ALKHABEER REIT FUND (continued)

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs that are endorsed in KSA, and the applicable provisions of the Real Estate Investment Traded Funds Regulations that are issued by the Board of the Capital Market Authority, and the Fund's terms and conditions, and for such internal control as Fund Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs that are endorsed in the Kingdom of Saudi Arabia will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs that are endorsed in the Kingdom of Saudi Arabia, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

**INDEPENDENT AUDITOR'S REPORT
TO THE UNITHOLDERS OF ALKHABEER REIT FUND (continued)**

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

We communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The attached notes 1 to 19 form part of these financial statements.

1 NATURE OF THE FUND

Alkhabeer REIT Fund (the "Fund") is a closed-ended Shariah compliant real estate investment traded fund, established on 16 December 2018 and managed by Alkhabeer Capital ("Capital" or the "Fund Manager"), for the benefit of the Fund's unitholders. The Fund is listed on the Saudi Stock Exchange (Tadawul). The Fund is ultimately supervised by the Fund Board. Alinma Investment Company acts as the Custodian of the Fund.

The Fund's main investment objective is to generate rental income yield and periodic cash distributions of not less than 90% of the Fund's annual net profits, by investing not less than 75 percent of the Funds total assets, according to its last audited financial statements, in income generating real estate assets in the Kingdom of Saudi Arabia excluding Makkah and Medina.

The terms and conditions of the Fund were approved by the Capital Market Authority (the "CMA") on 16 October 2018 (7 Safar 1440H). The offering period for the subscription of the units was from 11 November 2018 to 29 November 2018. The Fund commenced its activities on 16 December 2018. The Fund was listed on Tadawul on 20 March 2019.

In dealing with the unitholders, the Fund Manager considers the Fund as an independent entity. Accordingly, the Fund prepares its own financial statements. Furthermore, unitholders are considered owners of the assets of the Fund and distributions may be made in relation to their respective ownership in the total number of outstanding units.

The Fund's term is ninety-nine (99) years following the date of listing units on Tadawul. The term of the Fund may be extended at the Fund Manager's discretion subject to CMA approval.

The Fund is subject to the Sharia Boards guidelines in its investments and transactions.

The books and records of the Fund are maintained in Saudi Riyals (SR), which represents the functional and presentation currency of the Fund.

2 BASIS OF PREPARATION

As per the terms and conditions of the Fund, the fiscal year of the Fund is from 1 January to 31 December. As the Fund commenced operations on 16 December 2018 the first fiscal period is from 16 December 2018 to 31 December 2019. As such the period covered by these financial statements is from 16 December 2018 to 31 December 2019. As this is the first set of financial statements of the Fund since its inception, no comparative information is presented. The Fund presents its statement of financial position in order of liquidity.

2.1 Statement of compliance

These financial statements of the Fund have been prepared in accordance with International Financial Reporting Standards "IFRS" that are endorsed in Kingdom of Saudi Arabia ("KSA"), and other standards and pronouncements that are endorsed by Saudi Organization for Certified Public Accountants ("SOCPA") (collectively referred here in as "IFRSs that are endorsed in KSA").

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention using the accrual basis of accounting and the going concern assumption.

3 REGULATING AUTHORITY

The Fund has been established and units are offered in accordance with the Real Estate Investment Funds Regulations issued by CMA under Resolution No. 1-193-2006, dated 19/6/1427H, (The "Real Estate Investment Funds Regulations"), and in accordance with the instructions issued by CMA in respect of traded real estate investment funds pursuant to Resolution No. 6-130-2016, dated 23/1/1438H, corresponding to 24/10/2016G, ("Real Estate Investment Traded Funds Instructions") and amended by Resolution of the Board of the Capital Market Authority Number 2-115-2018, dated 13/2/1440H corresponding to 22/10/2018G detailing requirements for all the Real Estate Investment Funds within the Kingdom of Saudi Arabia.

4 SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted for the preparation of these financial statements are as follows:

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

International Financial Reporting Standard 9 (“Financial Instruments”) (“IFRS 9”) contains three principal classification categories for financial assets: measured at amortized cost (“AC”), fair value through other comprehensive income (“FVOCI”) and fair value through statement of profit or loss (“FVTPL”). This classification is generally based on the business model in which a financial asset is managed and its contractual cash flows.

On initial recognition, a financial asset is classified as AC, FVOCI or FVTPL.

The Fund’s financial assets consist of cash at banks, rental income receivable and other receivables.

Financial asset at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (“SPPI”) on the principal amount outstanding.

Financial asset at FVOCI

Debt instruments:

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

Equity instruments:

On initial recognition, for an equity investment that is not held for trading, the Fund may irrevocably elect to present subsequent changes in fair value in other comprehensive income (“OCI”). This election is made on an investment-by-investment basis.

Financial Asset at FVTPL

All other financial assets are classified as measured at FVTPL.

In addition, on initial recognition, the Fund may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Fund changes its business model for managing financial assets.

Business model assessment

The Fund’s business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

4 SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Derecognition

Financial assets

The Fund derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Fund neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in statement of profit or loss and other comprehensive income.

In transactions in which the Fund neither retains nor transfers substantially all of the risks and rewards of ownership of a financial asset and it retains control over the asset, the Fund continues to recognize the asset to the extent of its continuing involvement, determined by the extent to which it is exposed to changes in the value of the transferred asset.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as borrowings, payables, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs.

The Fund's financial liabilities include bank loan, security deposit and other payables.

Subsequent measurement

After initial recognition, the financial liabilities are subsequently measured at amortised cost using the effective profit rate ("EPR") method. Gains and losses as a result of unwinding of profit cost through EPR amortization process and on de-recognition of financial liabilities are recognized in the statement of profit or loss and other comprehensive income.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EPR. The EPR amortisation is included as finance costs in the statement of profit or loss and other comprehensive income. This category generally applies to borrowings including long term payables.

Impairment

IFRS 9 requires the Fund to record an allowance for ECLs for all loans and receivables not held at fair value through profit or loss.

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Fund expects to receive. The shortfall is then discounted at an approximation to the asset's original effective profit rate.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Fund.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

4 SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair value measurement (continued)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits from the asset's highest and best use or by selling it to another market participant that would utilize the asset in its highest and best use.

The Fund uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy. This is described, as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Management determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Management has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

For securities that are traded in organized financial markets, the fair value is determined by reference to exchange quoted market bid prices at the close of the business on the statement of financial position reporting date.

For securities where there is no quoted market price, a reasonable estimate of the fair value is determined by reference to the current market value of another instrument which is substantially the same or is based on the expected cash flows or the underlying Net Asset Value ("NAV") which is reflective of the fair value of these securities.

The fair value of investment in land, which approximates its realizable value, is measured using valuation techniques including the replacement cost basis, comparable market prices and discounted cash flow ("DCF") based on income approach.

Offsetting

Financial assets and financial liabilities are offset, and the net amount reported in the statement of financial position if, and only if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

Investment properties

Investment property is property (land or a building—or part of a building—or both) held (by the owner or by the lessee as a right-of-use asset) to earn rentals or for capital appreciation or both, rather than for use in the production or supply of goods or services or for administrative purposes; or sale in the ordinary course of business.

Investment property is measured initially at cost including transaction costs. Transaction costs include transfer taxes, professional fees for legal services and initial leasing commissions to bring the property to the condition necessary for it to be capable of operating. The carrying amount also includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met.

4 SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment properties

Subsequent to initial recognition, investment property is stated at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the investment property, including brokerage fees. Depreciation is provided over the estimated useful lives of the applicable assets using the straight-line method. The estimated useful lives of the principal classes of assets are as follows:

Buildings	40 years
-----------	----------

Freehold land is not depreciated

Investment property is derecognized when it has been disposed of or permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset would result in either gains or losses at the retirement or disposal of investment property.

Cash and cash equivalents

Cash and cash equivalents of the Fund include bank balances and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value. Cash and cash equivalents are carried at amortized cost in the statement of financial position.

Leases

The Fund assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Fund as a lessee

The Fund applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Fund recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right of use assets

The Fund recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Fund is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognized right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term which is 18 years.

Right-of-use assets are subject to impairment.

Lease liabilities

At the commencement date of the lease, the Fund recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Fund and payments of penalties for terminating the lease, if the lease term reflects the Fund exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Fund uses its incremental borrowing rate at the lease commencement date because the profit rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of profit and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

4 SIGNIFICANT ACCOUNTING POLICIES (continued)

Leases (continued)

Short-term leases and leases of low-value assets

The Fund applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Fund as a lessor

Leases in which the Fund does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Finance costs

Finance cost is recognized in the statement of profit or loss and other comprehensive income for all special commission-bearing financial instruments using the effective special commission method.

Dividends

Interim and final dividends are recorded as liability in the period in which they are approved by the Fund Board.

Accrued expenses and other payables

Liabilities are recognized for amounts to be paid in the future for goods or services received, whether or not billed to the Fund.

Provision

A provision is recognized when the Fund has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount can be made. Provision is not recognized for future operating loss.

Taxation and zakat

Taxation and zakat are the obligation of the unitholders and therefore, no provision for such liability is made in the financial statements.

Revenue recognition

Rental income from investment properties is recognized on an accrual basis in accordance with the terms of the corresponding contract. Capital gain resulting from the sale of investment property is recognized upon the execution of the corresponding sale contract.

5 SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Fund's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses and assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about the assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of assets or liabilities affected in future years.

Fair value measurement of financial instruments

When the fair value of financial assets and financial liabilities recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to the models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions relating to the factors could affect the reported fair value of financial instruments.

5 SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS (continued)**Useful lives of investment properties**

The fund manager determines the estimated useful lives of investment properties for calculating depreciation. This estimate is determined after considering expected usage of the assets and physical wear and tear. Fund manager reviews the residual value and useful lives annually and change in depreciation charges, if any, are adjusted in current and future periods.

Impairment of investment properties

Investment properties are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the carrying amount of the investment property exceeds its recoverable amount which is the higher of its fair value less cost to sell and value in use. For the purpose of assessing impairment, investment properties are grouped at lowest levels for which there are separately identifiable cash flows (cash generating units). Where an impairment loss subsequently reverses, the carrying amount of the investment property or cash-generating unit is increased to the revised estimate of its recoverable amount, but the increased carrying amount should not exceed the carrying amount that would have been determined, had no impairment loss been recognized for the investment property or cash generating unit in prior periods. A reversal of an impairment loss is recognized as income immediately in the statement of profit or loss.

6 MANAGEMENT FEE AND OTHER EXPENSES**Management fee**

The Fund Manager is entitled to a management fee equal to 9% per annum (as set out in the Fund's terms and conditions) of the net collected rental proceeds or 0.75% per annum of the NAV based on last valuation, whichever is lower.

Custody fee

The Custodian is entitled to a fee equal to 0.025% per annum (as set out in the Fund's terms and conditions) of the total assets based on the last audited financial statements, with a minimum of SR 200,000 annually and an initial one-time fee of SR 50,000, calculated and accrued on each valuation day (reporting date).

Administration fee

The Administrator is entitled to a fee equal to 0.025% per annum (as set out in the Fund's terms and conditions) of the NAV, calculated and accrued on each valuation day (reporting date).

7 INVESTMENT PROPERTIES

(i) Movement in investment properties during the period ended 31 December 2019 is as follows:

	<i>31 December 2019</i> SR
Acquisition of properties during the period	995,589,908
Depreciation	(20,927,846)
Impairment provision	(67,266,071)
Net book value at the end of the period	907,395,991

7 INVESTMENT PROPERTIES (continued)

(ii) The investment properties comprise of the following properties:

<i>Property Name</i>	<i>Type</i>	<i>Location</i>	<i>Cost of Acquisition SR</i>	<i>Depreciation</i>	<i>Impairment</i>	<i>Net Book Value SR</i>	<i>Fair Value SR</i>
Homeworks Center	Commercial	Riyadh	79,950,000	(598,750)	-	79,351,250	83,575,000
Palazzo Center	Commercial	Riyadh	95,632,500	(1,180,813)	-	94,451,687	97,445,000
Almalga Residential Compound	Residential	Riyadh	314,000,000	(6,028,023)	(67,266,071)	240,705,906	240,705,906
Gallery Mall	Commercial	Tabuk	178,007,408	(8,941,011)	-	169,066,397	183,430,000
Elite Commercial Center	Commercial	Jeddah	164,000,000	(2,471,408)	-	161,528,592	166,830,000
Ahlan Court	Commercial	Jeddah	71,750,000	(350,642)	-	71,399,358	72,850,000
Bin II Commercial Center	Commercial	Jeddah	92,250,000	(1,357,199)	-	90,892,801	91,170,000
			995,589,908	(20,927,846)	(67,266,071)	907,395,991	936,005,906

(iii) The net asset value and per unit value of the Fund would have been as follows:

	31 December 2019 SR
Net asset value (considering investment properties at cost)	571,745,229
Unrealised gain based on fair value of investment properties	28,609,915
Net assets value at fair value	600,355,144
Net assets value per unit, at cost	8.6051
Impact on net assets value per unit using the fair value of investment properties	0.4306
Net assets value per unit at fair value	9.0357

(iv) Alkhabeer Capital, the Fund Manager, has formed a Special Purpose Vehicle (“SPV”), Awal Almalga Real Estate Company (the “SPV”), registered under Commercial Registration No. 1010893802 dated 19 Shawwal 1438H (corresponding to 13 July 2017). The primary objective of the SPV is to retain and register real estate assets related to real estate funds in its name.

(v) The title deed of all the investment properties, except for Gallery Mall (as it is a right of use under operating lease arrangement) is registered in the name of the SPV. The SPV has confirmed that it is holding the investment properties for and on behalf of the Fund. Since the Fund is the beneficial owner of these properties, the investment properties have been recorded in the financial statements.

(vi) In accordance with article 21 of the Real Estate Investment Funds Regulations issued by Capital Market Authority (CMA), Saudi Arabia, the Fund manager has evaluated the fair value of the Fund’s investment properties based on two valuations prepared by the independent valuers, except for Almalga Residential Compound for which management has made further adjustments to better reflect the fair value of investment property in line with the revised future cashflows expected against the aforementioned property. However, in accordance with IFRSs that are endorsed in KSA, investment in real estate properties have been carried at cost less accumulated depreciation and impairment (if any) in these financial statements.

(vii) The valuation of the investment properties as at 31 December 2019 is carried out by White Cubes and Abaad, which are accredited valuers by Saudi Authority for Accredited Valuers (TAQEEM).

7 INVESTMENT PROPERTIES (continued)

- (viii) Gallery mall value includes the right of use asset relating to lease. The net amount at 31 December 2019 was SR 18,171,419 which is netted off against accumulated depreciation of SR 960,989, as at 31 December 2019.
- (ix) Rental income earned from the investment properties during the period was SR 72.2 million. Direct expenses incurred in relation to the investment properties that generated rental income during the period was SR 1.8 million. During the period and as at the period-end, no restrictions on the realizability of investment property or the remittance of income and proceeds of disposal were present. The Fund does not have any contractual obligations to purchase, construct or develop investment property or for repairs, maintenance or enhancements.
- (x) The cost of acquisition includes cost of land and buildings including any transactions costs. The value of the land at acquisition and 31 December 2019 was SR 301 million.
- (xi) The estimated useful life of the buildings is judged to be 40 years except for any right of use asset, whose useful life is determined by length of the underlying contract.
- (xii) Key assumptions used in determining the fair value of the investment properties as at 31 December 2019 are as follows:

<i>Property Name</i>	<i>Valuation methods</i>	<i>Discount rate</i> %	<i>Terminal rate</i> %
Homeworks Center	Discounted Cash Flow	8.00 – 9.00	7.60
Palazzo Center	Discounted Cash Flow & Income Approach	8.25 – 10.50	7.20
Almalga Residential Compound	Discounted Cash Flow & Income Approach	8.50 – 10.50	8.00
Gallery Mall	Discounted Cash Flow	11.00 – 12.25	12.70
Elite Commercial Center	Discounted Cash Flow & Income Approach	9.50 – 11.50	9.80
Ahlan Court	Discounted Cash Flow & Income Approach	8.50 – 11.25	9.50
Bin II Commercial Center	Discounted Cash Flow & Income Approach	9.50 – 12.00	10.30

- (xiii) An increase/decrease of 5% in underlying assumptions will result in an increase/decrease in the fair values of the investment properties by an amount of SR 46.8 million.

8 RENT AND OTHER RECEIVABLES AND PREPAYMENTS

	<i>31 December 2019</i> <i>SR</i>
Rental income receivable, net (note a below)	25,898,743
Prepayments	1,596,733
VAT receivables	1,923,876
Others	20,000
	<u>29,439,352</u>

- a. The rental income receivable is recorded as the net amount after the recording of impairment allowance against rental receivables amounting to SR 641,328.

9 BANK LOAN

The Fund has obtained a loan with a local bank in the normal course of its business and at commercial terms (SIBOR 6M + 2.25% per annum) maturing over a period of 5 years. The loan is secured against future rental collections.

10 ADVANCES AND SECURITY DEPOSIT

	<i>31 December 2019</i> <i>SR</i>
Security deposit	7,732,368
Unearned Advance rent	8,365,650
Advance rent received	269,500
	<u>16,367,518</u>

11 ACCRUED EXPENSES AND OTHER PAYABLES

Accrued expenses and other payables at 31 December 2019 comprise of the following:

	<i>31 December 2019</i> <i>SR</i>
Accrued professional fees	180,073
Accrued property management expenses	123,566
Valuation fees payable	86,100
Other	17,850
	<u>407,589</u>

12 RELATED PARTY TRANSACTIONS AND BALANCES

Significant related party transactions for the period from 16 December 2018 to 31 December 2019 are summarized below:

<i>Name of related party</i>	<i>Nature of transaction</i>	<i>Amounts of transactions For the period from 16 December 2018 to 31 December 2019 SR</i>	<i>Balance (payable)/receivable 31 December 2019 SR</i>
Alkhabeer Capital (Fund Manager)	Expenses incurred by the Fund Manager on behalf of the Fund	19,370,580	-
	Management fees	3,720,151	(2,392,789)
	Administration fees	124,008	(124,008)
Alinma Investment Company	Custody fees	200,000	(200,000)
	Aggregate compensation to Independent Fund Board Members	42,000	(42,000)
Fund Board			
Unitholders	Rental income	47,570,091	18,335,521

- a) As at 31 December 2019, the bank accounts of the Fund, amounting to SR 3 thousand and SR 19.3 million are in the name of the Fund Manager and the SPV respectively, acting on behalf of the Fund.
- b) At 31 December 2019, the Fund Manager had an investment in the Fund of 4,894,450 units valued at SR 53.3 million.

13 COMMITMENT AND CONTINGENCIES

As at 31 December 2019, the Fund has entered into an profit rate swap of notional amount SR 340 million with a fixed rate of 4.69%. The swap contract will become effective on 31 January 2020. The swap contract is intended to manage the profit rate cash flows risk of the Fund.

14 RISK MANAGEMENT

The Fund's objective in managing risk is the creation and protection of unit holder value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The process of risk management is critical to the Fund's continuing profitability. The Fund is exposed to market risk (which includes commission rate risk and currency risk), credit risk and liquidity risk arising from the financial instruments it holds. Furthermore, the fund is exposed to operational risk.

The Fund Manager is responsible for identifying and controlling risks. The Fund Board, which is appointed by the Fund Manager, supervises the Fund and is ultimately responsible for the overall management of the Fund.

Monitoring and controlling risk is primarily set up to be performed based on the limits established by the Fund Board. The Fund has investment guidelines that set out its overall business strategies, its tolerance of risk and its general risk management philosophy and is obliged to take appropriate actions.

Commission rate risk

Commission rate risk arises from the possibility that changes in market commission rates will affect future profitability or the fair value of the financial instruments. The Fund is not exposed to significant commission rate risk due to profit rate swap.

Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Fund did not undertake any transactions in foreign currencies during the period. Accordingly, the Fund is not exposed to foreign currency risk.

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

The Fund seeks to manage credit risk by monitoring credit exposures, limiting transactions with specific counterparties, and continually assessing the creditworthiness of counterparties. The Fund is exposed to credit risk on bank balances and rent receivables. As at 31 December 2019, the maximum exposure to credit risk of the Fund is the carrying value as disclosed in the statement of financial position.

Liquidity risk

Liquidity risk is the risk that an enterprise will encounter difficulty in raising funds to meet commitments associated with financial liabilities. Liquidity risk may result from an inability to sell a financial asset quickly at an amount close to its fair value.

The liquidity needs are monitored on a regular basis and the Fund Manager ensures that sufficient funds are available to meet any commitments as they arise.

14 RISK MANAGEMENT (continued)**Liquidity risk (continued)**

Maturity profile of discounted assets and liabilities are as follows:

31 December 2019	Less than 1 year SR	More than 1 year SR	No fixed maturity SR	Total SR
Assets				
Investment properties	-	-	907,395,991	907,395,991
Rent and other receivables and prepayments	29,439,352	-	-	29,439,352
Cash at bank	19,268,556	-	-	19,268,556
Total assets	48,707,908	-	907,395,991	956,103,899
Liabilities				
Bank loan	7,115,542	340,000,000	-	347,115,542
Lease obligations	1,423,184	16,286,040	-	17,709,224
Advances and security deposit	269,500	16,098,018	-	16,367,518
Accrued expenses and other payables	407,589	-	-	407,589
Due to related parties	2,758,797	-	-	2,758,797
Total liabilities	11,974,612	372,384,058	-	384,358,670

Operational risk

Operational risk is the risk of direct or indirect loss arising from a variety of causes associated with the processes, technology and infrastructure supporting the Fund's activities either internally or externally at the Fund's service provider, and from external factors other than credit, liquidity, market and currency risks such as those arising from the legal and regulatory requirements.

The Fund's objective is to manage operational risk so as to balance the limiting of financial losses and damage to its reputation while achieving its investment objective of generating returns to investors.

15 STANDARDS ISSUED BUT NOT YET EFFECTIVE

The standards and interpretations that are issued but not yet effective, up to the reporting date are disclosed below. The Fund intends to adopt these standards, when they become effective.

Amendments to IFRS 9, IAS 39 and IFRS 7: Interest Rate Benchmark Reform

In September 2019, the IASB issued amendments to IFRS 9, IAS 39 and IFRS 7, which concludes phase one of its work to respond to the effects of Interbank Offered Rates (IBOR) reform on financial reporting. The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the replacement of an existing interest rate benchmark with an alternative nearly risk-free interest rate (an RFR).

The amendments apply to annual periods beginning on or after 1 January 2020 and must be applied retrospectively. However, any hedge relationships that have previously been de-designated cannot be reinstated upon application, nor can any hedge relationships be designated with the benefit of hindsight. Early application is permitted and must be disclosed. These amendments are not applicable to the Fund.

15 STANDARDS ISSUED BUT NOT YET EFFECTIVE (continued)**Amendments to IAS 1 and IAS 8: Definition of Material**

In October 2018, the IASB issued amendments to IAS 1 Presentation of Financial Statements and IAS 8 to align the definition of 'material' across the standards and to clarify certain aspects of the definition. The new definition states that, 'Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general-purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.' The amendments clarify that materiality will depend on the nature or magnitude of information, or both. An entity will need to assess whether the information, either individually or in combination with other information, is material in the context of the financial statements.

The amendments apply to annual periods beginning on or after 1 January 2020 and must be applied prospectively. Early application is permitted and must be disclosed. The Fund is not expecting any change due to adoption of these amendments.

Interest rate benchmark reform

A fundamental reform of major interest rate benchmarks is being undertaken globally to replace or reform IBOR with alternative risk-free rates (referred to as 'IBOR reform'). The Fund has exposure to interbank offered rates (IBORs) on its financial instruments that will be replaced or reformed as part of this market-wide initiative. There is uncertainty over the timing and the methods of transition. The Fund anticipates that IBOR reform will have operational, risk management and accounting impacts across all of its business lines. The Fund's management is looking forward to identifying operational risks arising from IBOR reform.

16 DIVIDENDS

The Fund Board approved to pay quarterly dividend twice during the period ended 31 December 2019. The details are as follows:

<i>Date of approval</i>	<i>Amount per unit SR</i>	<i>Total SR</i>
31 July 2019	0.226	15,015,979.20
31 October 2019	0.20	13,288,477.20

On 28 January 2020, the Fund Board approved to pay a dividend, for the period from 31 October 2019 to 31 December 2019, of SR 0.20 per unit totaling to SR 13.29 million to its unitholders. The dividend has been paid subsequent to the period end and accordingly has not been accounted for in the financial statements.

17 LAST VALUATION DAY

The last valuation day for the period was 31 December 2019.

18 SUBSEQUENT EVENT

The outbreak of Novel Coronavirus (COVID 19) continues to progress and evolve. Therefore, it is challenging now, to predict the full extent and duration of its business and economic impact. The outbreak of Covid-19 has had an impact on demand for oil and petroleum products. Recent global developments in March 2020 have caused further volatility in commodity markets.

The extent and duration of such impacts remain uncertain and dependent on future developments that cannot be accurately predicted at this time, such as the transmission rate of the coronavirus and the extent and effectiveness of containment actions taken. Given the ongoing economic uncertainty, a reliable estimate of the impact cannot be made at the date of authorization of these consolidated financial statements. These developments could impact our future financial results, cash flows and financial condition.

19 APPROVAL OF FINANCIAL STATEMENTS

The financial statements were authorized for issue by the Fund Board on 27 April 2020 (4 Ramadan 1441H).
