Awal Al Malqa Real Estate Company

Jeddah City
30 June 2023

REF: 23-0424
Code:
Date: 30/06/2023
M/S: Awal Al Malqa Real Estate Company

Subject: Valuation Report for a Cold Store Project (AKUN Logistics) in Jeddah City, Saudi Arabia.

Dear Sir,

With reference to your request and approval dated on 29th of May 2023. We will provide you with a detailed report on the property under evaluation, including a market analysis, an economic analysis, and a description of the valuation methods. In addition, we WHITE CUBES guarantee the confidentiality of the client's information and are committed to complete impartiality in the evaluation process and acknowledge that there are no common interests between WHITECUBES and the client.

EXECUTIVE SUMMARY

EXECUTIVE
SUMMARY

Executive Summary

Reference No.	23-0424
Dep. Code	
Report Type	Detailed Report.
Client	Awal Al Malqa Real Estate Company.
Report user	Awal Al Malqa Real Estate Company.
Other users	Investors or those wishing to invest in the Real Estate Investment Trust.
Purpose of Valuation	Inclusion in financial statements.
Subject Property	Cold Storage Project.
Property Location	King Faisal Naval Base district district, Jeddah City.
Title Deed No.	625516001149, 425516001150
Title Deed Date	20/11/1442
Ownership Type	Freehold
Limitations	None
Owner	Awal Al Malqa Real Estate Company.
Land Use	Industrial Use
Land Area (Sqm)	The land has an area size of 21,118.53 Sqm
BUA (Sqm)	The property has a total BUA of 16,000 Sqm.
GLA (Sqm)	The total gross leasable area is 16,000 Sqm.
Basis of Value	Fair Value.
Value Hypothesis	Current use.
Valuation Approach	Comparable Approach, Cost Approach and Income Approach.
Currency	Saudi Arabian Riyal
Final Property Value	SAR 218,480,000
Report Date	30/06/2023
Valuation Date	30/06/2023
Inspection Date	30/05/2023
Expiry Date	120 days from date of the inspection, unless there're any economic changes that affect the subject property.

SCOPE OF WORK

SCOPE OF
WORK

Scope of Work

1.1 Introduction

This report was prepared by WHITE CUBES Co. based on the International Valuation Standards of the Council of International Assessment Standards (IVSC 2022) and the Guide to Practice and Regulations issued by the Saudi Authority of Accredited Valuers (Taqeem), to ensure accurate access to information, the evaluation report must be read in its entirety, our firm is pleased to offer its services to Awal Al Malqa Real Estate Company in order to estimate the fair value of the property that is being evaluated.

1.2 Purpose of valuation

The client requested that we evaluate the subject properties for **Inclusion in financial statements**.

1.3 Basis of Valuation

According to Paragraph 1.2, the appropriate basis for value adopted in the evaluation process is the fair value of the property.

IFRS 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It is based on the principle of an "exit price,"

1.4 Valuation Methods

Depending on the purpose of the valuation, and upon the request of the client, we will apply the comparable approach, cost approach and income approach.

1.5 Currency

Unless otherwise stated, all values in the report are in Saudi Arabian Riyals.

1.6 Scope of Research

Research is an important part of the valuation process. We will conduct extensive research and analysis of various factors that can impact the value of a property or asset, such as market conditions, comparable sales, property characteristics, income potential, and legal and regulatory factors.

1.7 Property Inspection

Inspection refers to visiting and inspecting an asset, testing its performance, and gathering information about it from quantities, specifications, land area, building areas, rental areas, services, public utilities, project components, etc., so that an opinion can be expressed regarding its value. Therefore, we confirm that subject property was inspected on May 30, 2023. We will then use this evidence to assess and evaluate the project. We remain committed to providing the client with an accurate and reliable valuation.

1.8 Information Sources

An on-site field survey was conducted by our team to ensure the accuracy of some market information required for the valuation, including nearby asset prices, occupancy rates, and specific information about the asset under valuation, to determine its actual fair value. The following sources were used during the field research process:

- Property records: Such as Title deeds, construction permits and layouts.
- Market trends: Real estate market trends and economic indicators can be used to assess the overall demand and supply for properties in the area.
- Market scanning: Income-producing properties such as rental properties can be valued based on their income potential.
- Physical inspection of the property can provide valuable information on its condition and any unique features that may affect its value.
- Construction permit and Layouts.

1.9 Assumptions and Special Assumptions

As defined by the International Valuation Standards, assumptions are logical matters that can be accepted as facts during valuation work without being specifically checked or scrutinized. They are accepted as soon as they are mentioned. Based on the facts at the time of the valuation.

- It has been assumed that the information provided by the client is accurate.
- Assumed that all information received from the client is accurate and up to date as of the date of the valuation, whether oral or written.
- This is a valuation report rather than a structural survey. As a result, we did not conduct any utility checks, service checks, soil tests, etc.
- The valuation methodologies are based on market data compiled using our relevant market knowledge and experience.
- This report's output (final value) is derived from assumptions used, documents received from the client, and market data. Nevertheless, the output estimates provide an indication of the property's value.
- After studying the market and using the built-up model, a discount rate of 7.25% was assumed for the project.

1.10 Use, Distribution, and Publication Restrictions

To estimate the fair value of the assets being evaluated, WHITE CUBES Co. has prepared this report. There are restrictions on the transfer, referencing, and presentation of this report and its contents to any other party except as stipulated in the contract letter, and the client must obtain our prior written consent in order to use this report for any other purpose other than that stated in this report.

1.11 Legal Notes

As far as we are aware, no legal notices have been served on the property, whether they are in progress or pending in the court system.

PROPERTY DETAILS

PROPERTY
DETAILS

Property and Location Description

2.1 Property Description

The subject property is a cold store project located in King Faisal Naval Base district, Jeddah City. Based on the provided copy of the title deed the subject property has a total land area of 21,118.53 sqm and as per the provided construction permit the total BUA of 16,000 Sqm. As per the site inspection done by our team for the purpose of valuation, the land open on 3 sides with a direct view on King Faisal Road from the east side.

2.2 Surrounding Area

The subject property is surrounded mostly by warehouses and mix-use buildings.

2.3 Ease of Access

Based on the current location of the subject property, the access level is high since it is located on King Faisal Road.

2.4 Infrastructure

All the infrastructural facilities are available in the surroundings and connected to the subject property.

2.5 Title Deed and Ownership

The client provides us with a copy of the title deed related to the subject property which is owned by two title deeds. The details of the subject property:

City	Jeddah	Land Area	21,118.53 Sqm
District	King Faisal Naval Base	Plot No.	8, 9, 10, 11, 12, 13, 14, 15
T.D Type	Electronic	Block No.	N/A
T.D Number	625516001149, 425516001150	Layout No.	س/ج/317
T.D Date	20/11/1442	Owner	Awal Al Malqa Real Estate Company
T.D Value	N/A	Ownership Type	Freehold
Date of Last Transaction	20/11/1442	Limitation of Document	None
Issued From	Ministry of Justice		
North Side	Private property	East Side	120 meters street
South Side	32 meters street	West Side	30 meters street

Note: The client has provided us with a copy of the Title Deed which was assumed to be correct and authentic. It is not in our scope to run legal diagnosis on any legal document.

2.6 Construction and Buildings

The building permit indicates the maximum permissible BUA approved by the city municipality. However, the actual area may differ from the area mentioned in the building permit. Therefore, the Client has provided us with a copy of the Construction Permit issued by Riyadh Municipality with the below details:

Subject Property	
Construction Permit Type	----
Property Type	----
Construction Permit No.	----
Construction Permit Date	----

We have not been provided with a Construction Permit.

3.3 Sector Brief

In the following we will insert general information about the real estate sector related to the property subject of our valuation and which is intended to give an initial indication on the sector. These information and indicators are estimated based on our experience, the current sector performance and some other historical data collected from our side, In addition to some current economic changes in general.

-  Indicator showing a decrease in the current performance comparing to last year
-  Indicator showing an increase in the current performance comparing to last year
-  Indicator showing a stable position in the current performance comparing to last year

PROPERTY VALUATION

PROPERTY
VALUATION

Property Valuation

4 Valuation Methods

With reference to the valuation purpose, taking into consideration the nature of the subject property, we will use the following ticked methods to estimate the fair value of the subject property:

	Market Approach	Cost Approach	Income Approach			
	Comparable method	DRC method	DCF method	Invest. method	Cap. Rate method	RLV method
Land	✓	----	----	----	----	----
Buildings	----	✓	----	----	----	----
Property	----	----	----	----	✓	----

COMPARABLE METHOD

This is the method most are familiar with as it is the accepted method for valuing residential real estate. Typically, this method involves selecting properties with similar characteristics in the same market area that have recently sold. Once those properties are found they are compared to the property in question and a professional appraiser will deduct value from the subject property for comparative deficiencies and increase value for advantages. Typically, this method is required if the investor is seeking conventional financing. For comparable information, property brokers, dealers and estate agents are contacted to ascertain the asking and selling prices for property of the nature in the immediate neighborhood and adjoining areas. Neighboring properties, which have been recently sold or purchased, are investigated to ascertain a reasonable selling price.

DEPRECIATED REPLACEMENT COST (DRC)

A cost approach is a real estate valuation method that surmises that the price someone should pay for a piece of property should not exceed what someone would have to pay to build an equivalent building. In cost approach pricing, the market price for the property is equivalent to the cost of land plus cost of construction, less depreciation. It is often most accurate for fair value when the property is new. Generally, the cost approach considers what the land, devoid of any structures, would cost, then adds the cost of building the structures, then depreciation is subtracted. The cost approach is most often used for public buildings, such as schools and mosques, because it is difficult to find recently sold comparable properties in the local market, and public buildings do not earn income, so the income approach cannot be used, either. A property that already has improvements will usually contribute a certain amount of value to the site, but improvements can also lower property value if the site's potential buyers wish to use the property for another use that would entail removing some of the improvements to the current site. The cost approach is best used when improvements are new and there is adequate pricing information to value the property components. The cost

approach may be less desirable if there are no recent sales of vacant land for which to compare, since the major method of valuing vacant lands is to use the sales comparison approach, or when construction costs are not readily available. The cost approach method includes:

- Estimate what the subject property would be worth.
- Estimate the current cost of building the structures, then add that value to the value of the vacant land.
- Estimate the amount of accrued depreciation of the subject property, then subtract it from the total to arrive at the property's worth.

CAPITALIZATION METHOD (CAP RATE)

The income approach values property by the amount of income that it can potentially generate. Hence, this method is used for apartments, office buildings, malls, and other property that generates a regular income.

The appraiser calculates the income according to the following steps:

- Estimate the potential annual gross income by doing market studies to determine what the property could earn, which may not be the same as what it is currently earning.
- The effective gross income is calculated by subtracting the vacancy rate and rent loss as estimated by the appraiser using market studies.
- The net operating income (NOI) is then calculated by subtracting the annual operating expenses from the effective gross income. Annual operating expenses include real estate taxes, insurance, utilities, maintenance, repairs, advertising, and management expenses. Management expenses are included even if the owner is going to manage it, since the owner incurs an opportunity cost by managing it herself. The cost of capital items is not included since it is not an operating expense. Hence, it does not include mortgage and interest since this is a debt payment on a capital item.

Estimate the capitalization rate (aka cap rate), which is the rate of return, or yield, that other investors of property are getting in the local market.

4.1 Comparable Method

This method aims to collect data and information on actual sales and / or current offers of similar properties within the surrounding market, and then make the necessary adjustments to these comparisons in terms of area, location, shape, quality, content, and others. Below is a summary of the valuation process using the comparable method and the amendments made to the available comparisons

Characteristics of Samples							
Feature	Subject Property	Sample 1		Sample 2		Sample 3	
Quoting	-----	Offering		Offering		Offering	
City	King Faisal Naval Base	King Faisal Naval Base		King Faisal Naval Base		King Faisal Naval Base

Main Street Width (m)	100	100	0.00%	100	0.00%	60	5.00%
Sides Open	3	4	0.00%	2	0.00%	1	0.00%
Land Shape	Regular	Regular	0.00%	Regular	0.00%	Regular	0.00%
Close to main street	Yes	Yes	0.00%	Yes	0.00%	Yes	0.00%
Total Adjustments Ratio			0.00%		0.00%		5.00%
Total Adjustment Amount			SAR 0.0		SAR 0.0		SAR 142.3
Net After Adjustment			SAR 2,452.4		SAR 2,755.1		SAR 2,988.5
Weighted Mean			70%		15%		15%
			SAR 1,716.67		SAR 413.27		SAR 448.27
SAR / Sqm	SAR 2,578						
Rounded Value	SAR 2,600						

Property Value	Sensitivity Analysis					
		-10%	-5%	0%	5%	10%
SAR 54,900,000	Land Area	21,119	21,119	21,119	21,119	21,119
	SAR / Sqm	SAR 2,340	SAR 2,470	SAR 2,600	SAR 2,730	SAR 2,860
	Property Value	SAR 49,417,360	SAR 52,162,769	SAR 54,908,178	SAR 57,653,587	SAR 60,398,996

As a first step, and based on the market survey done by our team for the purpose of valuation, we did not find land samples similar to the subject property in terms of area size, street width, location, etc. Yet, we have executed trade interviews with several local real estate agents and found that the average square meter price in the area falls between 2,200 and 3,000 SAR/ Sqm. We will base our valuation on the average rate 2,600 SAR/ Sqm.

4.2 Depreciated Replacement Cost (DRC) Approach

As a first step, the cost of reconstructing the building (the cost of replacement) was estimated, based on the average construction costs of similar properties and at the same level of finishes, services, utilities, and others. The opinion of some engineering experts was used in this regard. The following table shows the expected replacement costs for such property.

As per the site inspection done by our team for the purpose of valuation, we have found that the subject property is a customized cold storage warehouse. Yet, the client informed us that the total development cost of the project is 158,200,000 SAR which we believe it is an acceptable value based on the quality. To achieve the value of the property we need to apply the depreciation value and add the land value.

DEVELOPMENT VALUE			
Total Dev Cost	SAR 158,200,000	Annual Dep Rate	5.0%
Total Completion Rate	100%	Actual Age	6
Developer Profit Rate	25%	Total Dep Rate	30.00%
Dev. Profit Amount	SAR 27,685,000	Add Appr Rate	0.00%
Development Value	SAR 138,425,000	Net Dep Rate	30.00%
Economic Age	20	Cost After Depreciation	SAR 110,740,000

In order to determine the full value of the property, the construction costs will be added to the fair value of the land as follows:

Total Dev. Value	Land Value	Total Property Value	Rounded Value
SAR 110,740,000	SAR 54,908,178	SAR 165,648,178	SAR 165,650,000

4.3 Income Approach- Market Rates

Market Rental Analysis

The subject property is a cold storage and based on the market survey done by our team and based on the interviews done with local real estate agents, we have found that the rental rates for cold storage similar to the subject property in terms of quality, services, etc (mentioning 3 samples such as Wared Logistics, Storkom, Takhzeen Logistics) falls between 1,050 and 1,150 SAR/ Sqm. We will base our valuation on the average rate 1,100 SAR/ Sqm.

Market Capitalization Rate Analysis

Based on recent transactions of real estate properties and funds, the average capitalization rate of acquiring such property falls in the range of 7% to 9%. This average is mainly driven by several factors such as the quality of the building, finishing materials, the general location, ease of access, actual age of the property, size of the project, and the extent of income stability in it. In addition to the above, the capitalization rates are also affected directly by the supply and demand rates for the same type of real estate

The Capitalization Rate Used for the Valuation

With regard to the capitalization rate used in the valuation, we will base our analysis on the average capitalization rates based on the market and then make some adjustments based on the property situation in terms of its characteristics, location and some other important elements.

With regard to the capitalization rate used in the valuation, we will rely on the averages of the capitalization rate by market and then make some adjustments based on the real estate situation in terms of the following:

- Easy access to the property
- The general condition of the property
- The general location of the property
- Quality of finishes
- Quality and presence of management team
- Services and public utilities

The estimated capitalization rate for the property, which will be based on the valuation process, is 7.25%, which will be applied subsequently to the net operating income of the property.

	Sample 1	Sample 2	Sample 3
Sale Price	7,500,000.00	1,336,080.00	1,930,400.00
Revenue	543,750.00	93,525.60	144,780.00
Capitalization rate	7,25%	7.00%	7.50%
Average capitalization rate	7,25%		

Based on the above, the value of the property using the income capitalization method is as follows:

Revenues					
	Quantity		Revenues		
Unit Type	Total GLA	No of Units	SAR / Sqm	SAR / Unit	Total Revenues
Cold Storage	16,000	0	SAR 1,100	SAR 0	SAR 17,600,000
	0	0	SAR 0	SAR 0	SAR 0
				Total Revenues	SAR 17,600,000
Expenses					
Unit Type	Management	Utilities	Maintenance	Others	Total Expenses
Cold Storage	0.00%	0.00%	0.00%	10.00%	10.00%
0	0.00%	0.00%	0.00%	0.00%	0.00%
				Total Expenses	10.00%
Net Operating Income					
Unit Type	Total Revenues		Total Expenses		NOI
Cold Storage	SAR 17,600,000		10.00%		SAR 15,840,000
0	SAR 0		0.00%		SAR 0
				Total	SAR 15,840,000
Total Property Revenues					SAR 17,600,000
Total Property Expenses					-SAR 1,760,000
Net Operating Income					SAR 15,840,000.00
Net Operating Income	Cap Rate		Property Value		Rounded Value
SAR 15,840,000.00	7.25%		218,482,758.62		SAR 218,480,000.00

4.4 Income Approach- Leasing Contract

Actual Revenues

The client informed us that the subject property is fully leased to 1 tenant with a triple net of 16,000,000 SAR annually for 5 years.

Market Capitalization Rate Analysis

Based on recent transactions of real estate properties and funds, the average capitalization rate of acquiring such property falls in the range of 7% to 9%. This average is mainly driven by several factors such as the quality of the building, finishing materials, the general location, ease of access, actual age of the property, size of the project, and the extent of income stability in it. In addition to the above, the capitalization rates are also affected directly by the supply and demand rates for the same type of real estate.

The Capitalization Rate Used for the Valuation

With regard to the capitalization rate used in the valuation, we will base our analysis on the average capitalization rates based on the market and then make some adjustments based on the property situation in terms of its characteristics, location and some other important elements.

With regard to the capitalization rate used in the valuation, we will rely on the averages of the capitalization rate by market and then make some adjustments based on the real estate situation in terms of the following:

- Easy access to the property
- The general condition of the property
- The general location of the property
- Quality of finishes
- Quality and presence of management team
- Services and public utilities

The estimated capitalization rate for the property, which will be based on the valuation process, is 7.25%, which will be applied subsequently to the net operating income of the property.

Based on the above, the value of the property using the income capitalization method is as follows:

Revenues					
	Quantity		Revenues		
Unit Type	Total GLA	No of Units	SAR / Sqm	SAR / Unit	Total Revenues
Cold Storage	The subject property is Fully leased to 1 tenant				SAR 16,000,000
	0	0	SAR 0	SAR 0	SAR 0
				Total Revenues	SAR 16,000,000
Expenses					
Unit Type	Management	Utilities	Maintenance	Others	Total Expenses
Cold Storage	0.00%	0.00%	0.00%	0.00%	0.00%
0	0.00%	0.00%	0.00%	0.00%	0.00%
				Total Expenses	0.00%
Net Operating Income					
Unit Type	Total Revenues		Total Expenses		NOI
Cold Storage	SAR 16,000,000		0.00%		SAR 16,000,000
0	SAR 0		0.00%		SAR 0
				Total	SAR 16,000,000
Total Property Revenues					SAR 16,000,000
Total Property Expenses					SAR 0
Net Operating Income					SAR 16,000,000.00
Net Operating Income	Cap Rate		Property Value		Rounded Value
SAR 16,000,000.00	7.25%		220,689,655.17 SAR		SAR 220,690,000.00

4.5 Subject Property Value in Different Approaches

Methodology	Subject of Valuation	Value in Numbers	Value in Letters
DRC Approach	Land + Buildings	SAR 165,650,000	One Hundred Sixty-Five Million Six Hundred Fifty Thousand Saudi Riyals
Income- Contract	Property	SAR 220,690,000	Two Hundred Twenty Million and Six Hundred Ninety Thousand Saudi Riyals
Income- Market	Property	SAR 218,480,000	Two Hundred Eighteen Million and Four Hundred Eighty Thousand Saudi Riyals

4.6 Subject Property Value

We are of an opinion that the total fair value of the subject property taking into consideration the purpose of valuation by using the Income Approach based on the market rates is:

Property Value: 218,480,000 SAR
Two Hundred Eighteen Million and Four Hundred Eighty Thousand Saudi Riyals.

4.7 Conclusion

This report was issued based on all the data received from the client or any other party related to the evaluation mission, and on the assumption that all of this information received from us is correct. Also, all the values mentioned in this report express the opinion resulting from the evaluation process in compliance with international evaluation standards, and they are estimates based on preliminary information collected by our work team and it has been assumed to be correct. Any changes in any information contained in the report that would affect the mentioned final value of the property subject to evaluation.
