Valuation

- Analysis of Property Risks
- Market Study-Demand and Supply
- Valuation Approach
- Valuation Using the Income Method
- Summary of Value

Office

- In the first three months of **2023**, around **50,000** sq. m. of office gross leasable area (GLA) was delivered in Riyadh and Jeddah collectively. This brought the total existing stock to approximately **4.9** million sq. m. in the capital and **1.2** million sq. m. in Jeddah. Over the remainder of this year, an additional **61,000** sq. m. and **583,000** sq. m. of office GLA is scheduled to enter the market in Jeddah and Riyadh, respectively.
- In the capital, the supply and demand dynamics have further shifted the tide towards landlords, and they are expected to continue to remain bullish in order to capitalize on the strong demand. Additionally, corporates have been expanding towards the north, where office offerings come with better accessibility and parking. There is tight availability of good quality office space in the market. Indeed, the average market-wide vacancy in Riyadh dropped to **1%** in **Q1 2023**. As a result, average Grade A rents increased by **19%** year-on-year (Y-o-Y) to reach **SAR 1,764** per sq. m. per annum during the same period.
- In Jeddah however, the office market is exhibiting signs of softening. That said, well managed, single owned quality office spaces are highly sought after. Consequently, average Grade A rents rose by **15%** Y-o-Y to reach **SAR 1,199** per sq. m. per annum in the first quarter of **2023**. Broadly, market-wide demand is being led by local companies and family businesses relocating to newer areas towards the north and west. Accordingly, the citywide average vacancy stood at **8%** in **Q1 2023**.
- The office market in the Kingdom is expected to sustain its positive momentum. As Riyadh is being positioned as the new commercial nerve center, we expect more efforts towards substantially improving the infrastructure of the capital, to cater to its increasing popularity.

Source of Info: JLI

Residential

- Riyadh witnessed the completion of close to **7,800** residential units in **Q1 2023**, pushing up the total stock to **1.4** million residential units. Over the same period, **4,400** units were handed over in Jeddah to bring the city's residential inventory to **864,000** units. In the remaining months of this year, **45,000** units are planned to be delivered across the two cities combined.
- Several government-backed projects were launched in recent months to support the growing residential sector, such as the first phase of Al Arous in Jeddah, Al Fursan, and the second phase of Khuzum in the capital. One of the biggest announcements has been the launch of New Murabba in Riyadh, which aims to be one of the world's largest downtowns. All these announcements are reflective of strong pent-up demand and the government's continued confidence in the long-term growth of the residential sector in the Kingdom.
- The government has introduced several measures to expedite home ownership among Saudi nationals and boost the residential sector. Demand has been increasing, and I expect to continue to trend up. In a recent announcement, **100** million sq. m. of land was allocated to the residential sector in the capital and other cities to control the increase in land and residential prices. Undeniably, in the first quarter of **2023**, average sale prices and rents in Riyadh increased by **7%** and **2%**, Y-o-Y, respectively. On the same basis, in Jeddah, average sale prices increased by **11%** annually, and average rents climbed by **9%**.
- Overall, there has been a structural shift in the market, and demand for apartments has been outpacing villas, with sale prices registering an annual growth of **6%** in the capital and **17%** in Jeddah, in **Q1 2023**. Over the same period, rents for apartments grew by **4%** in Riyadh and **13%** in Jeddah.

Source of Info: JLI

Retail

- In Q1 2023, there were two retail developments completed in Riyadh, adding approximately 84,000 sq. m. of retail space and increasing the total supply to 3.4 million sq. m. Over the same period, Jeddah's retail stock increased by roughly 46,000 sq. m. to 1.8 million sq. m. In the remaining nine months of this year, 478,000 sq. m. of retail floorspace is scheduled to enter the market in Jeddah and about 105,000 sq. m. in Riyadh. With the retail market softening in Jeddah, we continue to be cautious about completing future projects on schedule.
- Overall, strip retail and smaller community centers have been performing better than larger super regional malls. The majority of the inquiries were for smaller spaces, particularly in Jeddah, where enquired spaces ranged between 8 to 120 sq. m. Additionally, tenants displayed a preference for corner locations with high visibility on the street, and outdoor seating areas have become very important for F&B (Food and Beverage) retailers due to their increasing popularity among consumers. In line with this trend, several malls have started to establish a separate F&B area located outside of the malls to attract tenants and increase footfall in their developments.
- F&B and entertainment segments have been the key footfall generators with increased focus on experiential retail. Moreover, landlords in the capital are trying to attract new market entrants who do not have a local presence in the country. In contrast, landlords in Jeddah are being more cautious and are seeking well-known brands to avoid risks associated with new market entrants.
- Looking at the rental performance, in annual terms, rents for super regional and regional malls increased by 11% and 8%, respectively, in Riyadh in the first quarter of this year. On the same basis, rents in Jeddah fell on average by 6% across super regional malls and remained stable for regional malls, signaling slowing market conditions in the city.

Hospitality

- There were no new hotel developments completed in the capital in Q1 2023, keeping the total stock stable at 21,000 keys. During the same period, Jeddah saw the delivery of 300 keys, increasing the total existing supply to 16,000 keys. An additional 3,000 keys are scheduled to enter the market in 2023 in both cities combined. Of this, around 2,000 keys are expected to enter Riyadh, and the remaining 1,000 keys are in Jeddah.
- As part of its efforts to increase tourism in the Kingdom and reach the target of 100 million visits a year by 2030, the government recently launched a new national airline, Riyadh Air, which will have its hub at Riyadh's King Salman International Airport. Additionally, a new stop-over (transit) visa was also announced for passengers traveling using existing national airlines, Saudia and Flynas. All these initiatives are going to boost the hospitality industry and help position Saudi Arabia as a global tourism destination in the long run.
- The Saudi market is currently going through a cultural shift, where new entertainment venues are being created, and global events are being hosted to establish its presence on the global tourism map. Looking at the growth prospects of the hotel industry, the majority of the operators who already have a presence in the country are planning to aggressively expand their offerings in the Kingdom and increase the volume of rooms under their portfolios. That said, owners of hospitality developments, are seeking to attract new unique operators.
- As a result, the hospitality sector performed strongly in the first quarter of 2023. Riyadh's occupancy rate rose to 76%, and the average daily rate (ADR) increased to USD 212 for YT February 2023, compared to the same period last year. On the same basis, Jeddah's occupancy rate reached 54% and ADR was recorded at USD 147. The Saudi hospitality market is expected to sustain its positive drive and improve further.

Valuation Methods Used

- When selecting the best approach to assess the value of the subject Property, we have taken into consideration the information provided by the Client, the current condition of the Property and our own analysis of the local market conditions. When determining the fair value of the subject Property, we have used the following methods and approaches:

Income Approach (Discounted Cash Flows)

- The income method provides an indicator of the value by converting the future cash flows into a single present value. According to this method, the value of the asset is determined using the value of revenues or cash flows or cost savings from the asset. The discount rate is usually reached by analyzing the suitable market and development transactions. We are also in communication with real estate agents and local investors to gauge the sensitivity of the figures.

Revenues

According to the information provided by the client, The total annual income of the subject property is **7,000,000** Riyals, starting on **24/02/2019** for a period of **15** years. A four-year reduction has been made starting from the beginning of **2021**, and the income for the remaining years will be estimated based on the following income table:

Year	Income
Years 1-2	7,000,000
Years 3-5	5,040,000
Year 6	5,390,000
Years 7-10	7,350,000
Years 11-15	7,717,500

Cap Rate

- A cap rate of **8.75%** is applied.

Discount Rate

- Based on our understanding of similar properties in the area of the Property and taking into consideration the site features, area, uses, terrain, supply, and demand, we have applied a discount rate of **11.55%**.

Valuation

Valuation Using the Income Method

- Given the previous factors, cash flows were calculated to reach a value of the subject Property. The cash flows covers 10.5 years (the remaining lease term). The cash flow schedule is made every six months as per the payments mentioned on page 22 :
- Inflation Rate: Discounted cash flows are calculated at an annual inflation rate of 2.8% per annum by taking the average rate of inflation in the domestic product of the Kingdom of Saudi Arabia for the past 12 years as per the Central Bank of Saudi Arabia.
- Discount rate: Based on our understanding of similar properties in the real estate area, and taking into account the characteristics of the location, area, use, supply and demand, we applied a discount rate of 11.55%.
- Rate of return on capital: The rate of return is calculated according to the location of the property and the type of construction, as well as the field and office research for similar rates of return to the property under valuation, and according to our understanding of the real estate market in the Kingdom, a rate of 8.75% has been reached.

Summary of Cash Flow Calculations:

Period (Semi-annual)	1	2	3	4	5	18	19	20	21
Occupancy Rate (%)	100.00%	100.00%	100.00%	100.00%	100.00%	100.00%	100.00%	100.00%	100.00%

General Terms Used in the Preparation of the Valuation Report

Authority

Means the Saudi Authority for Accredited Valuers (TAQEEM), the authority concerned with developing requisite guidelines and standards for the valuation of properties, business establishments, equipment, movable property, etc. in accordance with the Accredited Valuers Regulations promulgated by Royal Decree No. (M/43) dated (9/7/1433). Its objective is to develop the valuation profession and improve the qualifications of valuers, as well as to develop and maintain the general rules for Authority membership of various levels with ongoing development of the qualifications of its members to keep abreast of the highest state of the art levels. The (Authority) is a legal entity, not for profit, with an independent budget. It operates under the supervision of the Ministry of Commerce and Investment.

Asset(s)

To facilitate reading of the standards and in order to avoid repetition, the term Asset(s) generally refers to the items which are the subject of the valuation exercise. Unless otherwise provided in the standards, these terms may be taken to mean and include each of the following words: (an asset, group of assets, obligation, group of obligations, or a group of assets and obligations).

Client

The word (Client) refers to the person(s) or entity for which the valuation is carried out, including the external clients (that is when the valuer is contracted with a third party), as well as the internal clients (that is the valuations prepared for the owner).

Legal Jurisdiction

The word (Jurisdiction) refers to the legal and regulatory environment wherein the valuation process is carried out. It includes the laws and regulations issued by

government authorities, such as the district, state and municipality, and the laws issued by certain regulatory entities commensurate with the purpose of the valuation, such as central banks and capital market authorities.

May

The word (May) describes the action which the valuer is required to take into consideration. Matters described as such require the valuer's attention and understanding. The ability to apply these matters in the valuation process depends on the valuer's judgement and professional experience under conditions which are in line with the objectives of the standards.

Shall

The word (Shall) refers to an unconditional responsibility, that is, the valuer must fulfil any responsibilities of this type in all cases and under all circumstances where the condition is applicable.

Participant

The word (Participant) refers to the participants concerned on the basis(es) of the value used in the valuation exercise (see Standard 104 – Basis of Value). The different bases of value require the valuer to take different points of view into consideration, such as the points of view of the market participants, including for example the fair value, the fair value of the International Financial Reporting Standards (IFRS), a certain owner or a prospective buyer, such as the investment value.

Purpose

The word (Purpose) refers to the cause(s) of carrying out the valuation. It includes the general purposes (for example, without limitation) the purposes of the financial reports, tax reports, litigation support, transactions support and support of secured lending decisions.
