Dry vacuuming

Vacuuming

Description

Definition / objective	Removing dry, loose dirt from floor coverings and surfaces using the dry vacuum cleaner. Suitable for textile and textured floor coverings and surfaces.
Preparatory work	<p>Select suitable products to match the surface to be cleaned (type / square metres) and the type of soiling.</p> <p>Check, equip and ready the vacuum cleaner and all accessories in compliance with the instructions for use.</p> <p>Pick up and dispose of coarse dirt (e.g. strings, bottles, etc.) by hand.</p> <p>Put up the warning sign.</p>
Main task	<p> Use the dry vacuum cleaner to dry-vacuum the area in slightly overlapping passes; start from the wall socket and work your way across the room.</p> <p> Perform a visual check.</p>
Final steps	<p>Clean the suction nozzle.</p> <p>Check the power cable for visible damage, clean the cable and roll it up loosely towards the plug.</p> <p>Remove the warning sign.</p> <p>Check the fill level of the filter bag; change the bag if it is full.</p> <p>Dispose of any waste.</p> <p>Clean the cleaning equipment and replace as needed.</p>
Comments	<ul style="list-style-type: none">- Wear the personal protective equipment (PPE) required by company regulations, safety data sheets and / or instructions for use.- Always check in advance which product meets your requirements (see Wetrok Cleaning & Care Instructions).- Wetrok AG accepts no liability for damage caused by improper use or incorrect product selection.
