

Information Letter on the Implementation of the EU Packaging and Packaging Waste Regulation (PPWR)

We would like to inform you about the current status of the EU Packaging and Packaging Waste Regulation (PPWR), which entered into force on 12 August 2026.

Companies are required to demonstrate that their packaging complies with the applicable legal requirements and to provide the necessary technical documentation.

As part of the supply chain, we are currently working to obtain the required information from our suppliers. At the same time, we are reviewing and assessing the available data and checking its compliance with the requirements of the PPWR.

We appreciate your understanding that this process will take some additional time due to the complexity of the requirements and the ongoing collection of supplier data.

We will contact you as soon as we have further information to share.

Patrick Beer
