Cleaning Excellence
Trusted Swiss Quality

Wetrok KeyCar

Personal. Practical. Safe.

The KeyCar is the cleaning trolley for facilities with the highest standards. It combines uncompromising safety with individual design, making it both a functional work tool and a visible ambassador. Whether in hospitals, schools, or public buildings, the KeyCar inspires trust, conveys professionalism, and elevates everyday cleaning to a new level.

Wetrok SmartCar

Compact. Flexible. Smart.

A modular cleaning station on wheels: the SmartCar combines a space-saving design with maximum flexibility and adapts to any cleaning situation: from offices to hospitals. Ergonomic details and colour coding make work easier while ensuring order and efficiency. Durable, recyclable materials stand for sustainability. Lockable components and DIN 13063 compliance guarantee the highest hygiene and safety standards.

Individual design

With a freely customisable exterior design, the KeyCar becomes a brand ambassador, a mood booster, or blends in discreetly and elegantly with its surroundings.

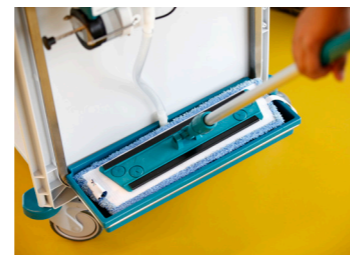

Maximum safety

Fully locked with just one turn of the key: reliably protects cleaning chemicals and utensils from unauthorised access, ideal for schools, care facilities, and public buildings.

Flexible interior equipment

Thanks to freely selectable and adaptable interior equipment, the KeyCar adjusts perfectly to your individual requirements.

Sports facility cleaning with dosing system

Mops remain dry until use and are moistened directly on the trolley, for maximum hygiene, ergonomic working, and significantly reduced chemical consumption.

Optimal use of space

Lots of capacity in minimal space: compact, manoeuvrable, and yet highly spacious with up to 99 litres of loading volume per tower. Modularly expandable with over 6,000 configuration options.

Ergonomic & hygienic

Height-adjustable push handles and touch-free disposal make work easier. DIN 13063-compliant surfaces and the separation of clean and soiled areas ensure the highest clinical standards.

Flexible solutions

Detachable / foldable disposal unit, optional cladding, colour-coded buckets, and lockable components ensure efficiency and safety. Portovac and Spin BeFree also have their designated space.

Sustainable & future-proof

Robust, ergonomic, and made of durable, recyclable material. The WetBox system enables hygienic working with pre-moistened mops for maximum efficiency at the highest level.

Wetrok EasyCar

Affordable. Robust. Simple.

The EasyCar is the straightforward solution for anyone looking for a reliable transport aid at an attractive price. It combines a slim design with solid Wetrok quality, making it especially easy to get started in professional cleaning. Thanks to its well-thought-out construction, everything stays clear and well organised, ideal for efficient cleaning processes.

The ideal companions for every cleaning situation

Cleaning without compromise

Whether space-saving, cost-efficient, or individually designed – Wetrok cleaning trolleys offer the right solution for every application. Thanks to modular concepts, ergonomic design, and durable materials, they make everyday work easier while ensuring efficient, safe, and hygienic processes.

Healthcare

In hospitals, nursing homes, and medical practices, the highest hygiene and safety standards are essential. Wetrok cleaning trolleys ensure these through the clear separation of clean and soiled areas, DIN 13063-compliant solutions, and fully lockable components. Optionally integrated dosing systems and well-thought-out colour coding guarantee maximum hygiene for patients, staff, and visitors.

Education & Public Buildings

In schools, kindergartens, and high-traffic areas such as train stations, airports, or shopping centres, robustness, security, and a professional appearance are key. The trolleys are easy to handle, highly durable in daily use, and provide reliable protection against unauthorised access. The freely customisable exterior design of the KeyCar – from child-friendly motifs to branded designs – makes them practical helpers as well as visible ambassadors.

Offices & Hotels

In sensitive areas such as hotels, conference centres, or offices, discretion, ergonomics, and efficiency are crucial. A slim design, ergonomic working height, and smooth-running castors make the trolleys exceptionally manoeuvrable, even in narrow corridors and lifts. At the same time, well-structured storage and quiet handling ensure efficient cleaning without disturbing guests or employees.

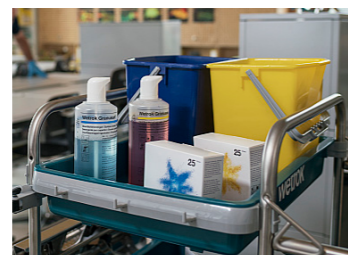

Affordable & robust

Proven Wetrok quality at an attractive price, without compromise on stability or durability. The smart choice for cost-conscious and sustainable use.

Quick to use

Assembled in just a few simple steps and ready to use immediately. This makes getting started easy and turns the EasyCar into a straightforward companion in everyday cleaning.

5 versions

With five versions, you can choose the EasyCar that best suits your needs, whether for wet mopping with a press or for office cleaning.

Compact & comfortable

Slim design, ergonomic working height, and high-quality castors ensure optimal, fatigue-free handling, even in tight spaces and lifts.
